# Installation & Cleaning

## Installation

Warranty requires a correct installation is essential. Do not skip the installation instructions carefully. The floor mat does not have to be installed directly under the oven, cook, gas hob, grill and above the hot air recommend using an anti slip semi-conducting mat for installation just in case for the floor mat website: [www.thefloorhub.co.uk](http://www.thefloorhub.co.uk)

## Cleaning

Trying out a proper maintenance programme on your carpet will not only extend the life of your carpet, it will also have a positive effect on appearance and freshness of your flooring. A regular brushing routine should be done to help freshen the carpet through different areas of the building and its specific needs. We recommend to exclude a specialised maintenance plan, please visit the floor hub website for details: [www.thefloorhub.co.uk](http://www.thefloorhub.co.uk)
