Transmission 2.0

Multi-level Patterned Loop

Transmission 2.0

Multi-level Patterned Loop Tile

Introducing Transmission 2.0, the latest gem in the floorhub lineup. Crafted in the UK from solution-dyed nylon, this carpet tile boasts a minimum 75% recycled content in its backing. With its true random lay design and availability in 16 colours, it seamlessly integrates into the new wave collection, offering a versatile modular flooring solution. Mix and match any of the 7 designs to suit your space effortlessly.

Installation & Cleaning

Installation

For optimal results, a correct installation is essential, so please follow the installation instructions carefully. The floorhub carpet tiles can be installed on any subfloor that is dry, clean, grease-free, firm and stable and flat. We recommend using an anti-slip, semi-permanent tackifier. Installation guide can be found on the floorhub website: www.thefloorhub.co.uk

Cleaning

Carrying out a proper maintenance programme on your carpet will not only extend the life in your carpet investment but will have a positive effect on appearance and investment of your flooring. Frequency of cleaning must be based on how much traffic goes through different areas of the building and its specific needs.

We recommend to execute a specialised maintenance plan, please visit the floorhub website for details: www.thefloorhub.co.uk

LRV Ratings

Oberon	6.9
Malin	5.3
Floras	4.8
Titan	8.1
Subra	4.5
Mira	3.2
